## UNLOCK THE VALUE FOR YOUR PRACTICE

## Online Patient Registration pricing

☑ You only pay when your patient submits the form and patient data is captured in Genie

☑ Price includes an initial SMS and up to two follow up SMS

☑ We allow you to test how the forms work for you and your practice with five free trial forms

☑ To learn more about pricing, visit www.geniesolutions.com.au/online-patient-registration

## Improve your practice experience

Your new patients will love the Online Patient Registration because:

☑ They're digital creatures who would rather use their phones than a paper form

☑ They can register as soon as they receive the link, rather than rushing to complete it just before their appointment

☑ They can control their own information, especially important to patients with complicated surnames that others often misspell.

Your admin staff will love the Online Patient Registration because:

☑ It frees them up to concentrate on welcoming new patients rather than gathering information.

☑ It means an end to tedious data entry tasks at the end of an already long shift.

☑ It will reduce data accuracy errors which can cause confusion and cost time to fix.

The practice owner will love the Online Patient Registration because:

☑ It creates a modern, friendly irst impression when welcoming new patients

☑ It will reduce data entry errors that cost you time and money to fix later.
